Summary of findings

Overall summary

We carried out an unannounced visit to AL House on 13 January 2026. This was in response to concerns we received that suggested people using the service may be at risk of harm. Although 1 child was living at the service, we established a regulated activity was not being delivered. This meant we were unable to complete an assessment. We have therefore made this location dormant on our register and will follow our dormancy monitoring procedures.

Prior to and following our visit, we shared information about the service with partner agencies, so they were made aware that we were unable to assess the safety and quality of care provided to the children and young people living at AL House.

Our inspection team: Two inspectors carried out the visit on 13 January 2026.

The five questions we ask about services and what we found

We always ask the following five questions of services.

Is the service safe?

At the time of our visit the child living at the service was not in receipt of the regulated activity of personal care.

Insufficient evidence to rate
