

Compliance action taken for childcare provision

Ref: 145888/6107874

Date: 23 September 2025

Summary of outcome

All early years providers must meet the legal requirements in the Statutory framework for the early years foundation stage, which you can find at www.gov.uk/government/publications/early-years-foundation-stage-framework--2. If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right.

On 7 September 2025, the provider notified us about an incident relating to safety and suitability of premises, environment and equipment. The notification means that the provider met their legal responsibility as set out in the Statutory framework for the early years foundation stage to notify Ofsted of a significant event. The provider will be able to give parents further information about this.

On 23 September 2025, we carried out a regulatory telephone call. We found the provider was not meeting one of the requirements and had taken action to put this right. The provider has reviewed their risk assessments for taking children on outings to the farm. For example, the provider now ensures that staff take hand wipes on outings for children to use when there are no hand washing facilities in the immediate vicinity. The provider has taken health and safety guidance relating to unpasteurised milk into consideration. Additionally, they have increased staff ratios on outings to promote children's welfare and meet their individual needs.

The provider is still registered with Ofsted.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years.
