

Compliance action taken for childcare provision

Ref: 200556/6091156

Date: 29 September 2025

Summary of outcome

All early years providers must meet the legal requirements in the Statutory framework for the early years foundation stage, which you can find at www.gov.uk/government/publications/early-years-foundation-stage-framework--2. If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right. On 26 June 2025, we received concerns that the provider was not meeting requirements relating to accident or injury.

On 22 September 2025, we carried out a regulatory telephone call. We found the provider was not meeting some of the requirements, but had taken action to put this right. The provider had taken immediate action following a serious injury to a child. The provider had reviewed how they keep children safe whilst accessing and using the play equipment in the garden. They had reviewed the garden risk assessments to ensure staff consistently embed the rules and expectations of how children safely use play equipment to prevent accidents or injuries. We also found that the provider had failed to notify us of new trustees of the registered person. When they were alerted to this omission, the provider took steps to remedy it. The provider will be able to give parents further information about this. The provider is still registered with Ofsted.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years.
