

Compliance action taken for childcare provision

Ref: 250766/5895827

Date: 18 December 2024

Summary of outcome

All early years providers must meet the legal requirements in the Statutory framework for the early years foundation stage, which you can find at www.gov.uk/government/publications/early-years-foundation-stage-framework--2. If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right.

On 26 November 2024, we carried out an inspection and found the provider was not meeting some of these requirements. The report and inspection outcome will be published in due course. Following the inspection, we served a welfare requirements notice on 4 December 2024. This is a legal notice that requires the provider to take the actions below within the timescales set out. The provider will be able to give parents further information about this.

Actions needed by 9 December 2024:

ensure that safeguarding policies and procedures include the action to be taken when there are safeguarding concerns about a child and in the event of an allegation

develop an understanding of the 'Prevent duty guidance' for England and Wales 2023'

ensure that medicines are only administered to a child where written permission for that particular medicine has been obtained from the child's parent and/or carer

enable a regular two-way flow of information with other providers that children attend

ensure records are easily accessible and available.

On 10 December 2024, we carried out a regulatory visit. The focus of the visit was to check whether the provider had met the safeguarding and welfare actions raised at their last inspection. We found that the provider had improved their knowledge and understanding of child protection procedures. They now have the required documents in place for administering medication. The provider now liaises with the other settings that children attend and ensures that all required records are available.

We are satisfied the provider has met the safeguarding and welfare actions raised. The provider is still registered with Ofsted.
