

Compliance action taken for childcare provision

Ref: 2623189/5431581

Date: 30 May 2023

Summary of outcome

All early years providers must meet the legal requirements in the Statutory framework for the early years foundation stage, which you can find at www.gov.uk/government/publications/early-years-foundation-stage-framework--2. If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right.

On 2 May 2023, we carried out an inspection and found the provider was not meeting some of these requirements. The report and inspection outcome will be published in due course. Following the inspection, we served a welfare requirements notice on 9 May 2023. This is a legal notice that requires the provider to take the actions below within the timescales set out. The provider will be able to give parents further information about this.

Actions needed by 4 May 2023:

- ensure that your safeguarding policy includes the procedure to follow in the event of an allegation being made against yourself or a household member
- implement the safeguarding policy and procedures in relation to the safe use of mobile phones and cameras
- ensure sufficient records are kept and followed up in relation to a child's welfare in order to effectively safeguard children.

On 12 May 2023, we carried out a regulatory telephone call. The focus of the call was to check whether the provider had met the safeguarding and welfare actions raised at their last inspection with a due date of 4 May 2023. We found that the provider had amended their safeguarding policy and procedures. They had improved their knowledge and understanding of child protection procedures and now fully understand their responsibilities to safeguard children and maintain records, policies and procedures.

Actions needed by 12 May 2023:

- provide Ofsted with necessary information about any adults working on the premises to enable appropriate checks to be completed
- ensure risks are sufficiently assessed and hazards to children are minimised, including those associated with the care of your dog
- promote good hygiene procedures, with particular regard to hand washing and nappy changing.

On 19 May 2023, we carried out a regulatory visit. The focus of the visit was to check whether the provider had met the safeguarding and welfare actions raised at their last inspection with a due date of 12 May 2023. We found that the provider had provided all information to ensure the suitability of adults who have contact with children. The provider has taken all reasonable steps to ensure children in their care are not exposed to risks and are able to demonstrate how they are managing risks. The improved hygiene procedures promote good health.

We are satisfied the provider has met the safeguarding and welfare actions raised. The provider is still registered with Ofsted.
