

Compliance action taken for childcare provision

Ref: 2741504/5642735

Date: 19 February 2024

Summary of outcome

All early years providers must meet the legal requirements in the [Statutory framework for the early years foundation stage](#). If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right.

On 24 January 2024 the provider notified us of an incident when a child was left unsupervised. The notification means that the provider met their legal responsibility as set out in the 'Statutory framework for the early years foundation stage' to notify Ofsted of a significant event which is likely to affect the suitability of the early years provider to look after children.

On 8 February 2024 we contacted the provider and discussed the incident with them. We found that there had been breaches of requirements relating to child supervision and risk assessment. We found that the provider had strengthened their risk assessment procedures and ensured that all staff were aware of how to follow them.

We are satisfied with the action taken.

The provider will be able to give parents further information about this.

The provider is still registered with Ofsted.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years.

For further information please read the Early years compliance handbook which can be found here at www.gov.uk/government/publications/early-years-provider-non-compliance-action-by-ofsted.
