

Compliance action taken for childcare provision

Ref: 2759187/5980889

Date: 24 March 2025

Summary of outcome

On 27 February 2025, the provider notified us about an incident which raised concerns the provider was not meeting requirements relating to Supporting and understanding children's behaviour and Key person. The notification means that the provider met their legal responsibility as set out in the Statutory framework for the early years foundation stage to notify Ofsted of significant events.

On 24 March 2025, we carried out a regulatory telephone call. We found the provider was not meeting some of the requirements and had taken action to put this right. The provider has reviewed their policy and procedures for the administration of medication to children. Wherever possible, medicines will be administered to children by their key person to ensure children feel settled and secure.

The provider will be able to give parents further information about this. The provider is still registered with Ofsted.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years.

For further information please read the Early years compliance handbook which can be found here at www.gov.uk/government/publications/early-years-provider-non-compliance-action-by-ofsted.
