

Compliance action taken for childcare provision

Ref: 2776521/6412693

Date: 22 June 2026

Summary of outcome

All early years providers must meet the legal requirements in the Statutory framework for the early years foundation stage, which you can find at www.gov.uk/government/publications/early-years-foundation-stage-framework--2. If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right.

On 2 June 2026, we carried out an inspection and found the provider was not meeting some of these requirements.

The report card and inspection outcome will be published in due course. Following the inspection, we suspended the provider's registration because we believe children may be at risk of harm and we served a welfare requirements notice. This is a legal notice that requires the provider to take the actions below within the timescales set out. The provider will be able to give parents further information about this.

Actions needed by 10 June 2026:

- ensure safeguarding responsibilities and procedures are understood and implemented so that appropriate action is taken if any concerns arise about a child's safety or welfare
- gain relevant skills and knowledge to help ensure that care and learning experiences provided meet children's needs and support them to make secure progress in their learning and development
- ensure children are provided with healthy foods, and support their understanding of healthy eating habits
- ensure children with emerging developmental concerns are identified and receive appropriate support and intervention to meet their individual learning and development needs.

On 16 June 2026, we carried out a regulatory visit. The focus of the visit was to check whether the provider had met the safeguarding and welfare actions raised at their last inspection. During the visit, the provider notified us of their wish to resign their registration from the Early Years Register (EYR) and compulsory part of the Childcare register (CCR) with immediate effect. They were still suspended at the time.

We found the provider was meeting the requirements of the voluntary childcare register (VCR) and are satisfied that the identified risk of harm to children has been removed. Therefore, we accepted their resignation, and the provider remains registered with Ofsted on the VCR as a home childcarer and we have lifted the provider's suspension.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years.

For further information please read the Early years compliance handbook which can be found here at www.gov.uk/government/publications/early-years-provider-non-compliance-action-by-ofsted.
