Monitoring visit

Inspected under the social care common inspection framework

Information about this children's home

This home is operated by a private organisation. The home is registered to provide care for up to two children who experience social and emotional difficulties. At the time of the visit, no children were living at the home.

The home and the manager registered with Ofsted in July 2024.

The home has not previously been inspected. A monitoring visit took place in December 2024.

At the time of the visit, there was an ongoing investigation by the appropriate authorities due to safeguarding concerns raised regarding the care of a child who had been living at the home. While Ofsted does not have the power to investigate incidents of this kind, actions taken by the setting in response to the incidents were considered alongside other evidence available at the time of the inspection to inform the inspector's judgements.

Inspection date: 27 March 2025

This monitoring visit

In October 2024, Ofsted was informed that there had been some serious allegations about staff conduct and subsequently issued a notice suspending the registration of the home. This prevents the provider from moving any children into the home.

This visit was carried out to monitor compliance with the suspension notice. The home has not provided care for children since the suspension notice was issued. The provider has complied with the suspension notice, which remains in place.

A safeguarding investigation in respect of the allegations remains ongoing. In the meantime, staff have been provided with additional training to improve their knowledge and skills. The outcome of the investigation is not yet known. The provider is continuing to work in collaboration with the authorities investigating the allegations.

No requirements or recommendations were set at this inspection.

Information about this inspection

The purpose of this visit was to monitor the action taken and the progress made by the children's home since its last Ofsted inspection.

This inspection was carried out under the Care Standards Act 2000.
