

Compliance action taken for childcare provision

Ref: 402985/6101551

Date: 31 October 2025

Summary of outcome

All early years providers must meet the legal requirements in the Statutory framework for the early years foundation stage, which you can find at www.gov.uk/government/publications/early-years-foundation-stage-framework--2. If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right.

On 15 July 2025, the provider notified us about matters relating to children's safety on outings. The notification means that the provider met their legal responsibility as set out in the Statutory framework for the early years foundation stage to notify Ofsted of any significant events.

On 28 October 2025, we carried out a regulatory telephone call. We found the provider was not meeting one of the requirements and had taken action to put this right. The provider has improved risk assessment procedures for outings to ensure children's safety. We also found that the provider had failed to notify Ofsted of changes to the governing body, which is a requirement of their registration. The provider is still registered with Ofsted.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years.
