

Compliance action taken for childcare provision

Ref: EY246825/5217963

Date: 9 September 2022

Summary of outcome

All early years providers must meet the legal requirements in the Statutory framework for the early years foundation stage, which you can find at www.gov.uk/government/publications/early-years-foundation-stage-framework--2. If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right.

On 21 July 2022, we carried out an inspection and found the provider was not meeting some of these requirements. The overall effectiveness of the provision was judged to be inadequate. The inspection report sets out the actions the provider was required to take to meet the requirements.'

Following the inspection, we served a welfare requirements notice on 01 August 2022. This is a legal notice that requires the provider to take the actions below within the timescales set out. The provider will be able to give parents further information about this.

Actions needed by 26 August 2022:

- take action to ensure that all possible risks to children are identified and minimised to keep children safe
- improve the quality of teaching to ensure children receive consistent, good quality learning experiences that prepare them for the next stage in their education.

On 08 September 2022, we carried out a regulatory visit. The focus of the visit was to check whether the provider had met the safeguarding and welfare actions and learning and development actions, raised at their last inspection. We found that the provider had improved her knowledge and understanding of risk assessment and the childminder's setting was found to be free from any hazards. In addition, the childminder demonstrated how children receive consistent, good quality learning experiences that prepare them for the next stage in their education.

We are satisfied the provider has met the safeguarding and welfare actions raised. The provider is still registered with Ofsted.
