

Compliance action taken for childcare provision

Ref: EY411118/6280278

Date: 16 May 2026

Summary of outcome

All early years providers must meet the legal requirements in the 'Statutory framework for the early years foundation stage', which you can find at www.gov.uk/government/publications/early-years-foundation-stage-framework--2. If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right.

On 25 January 2026, we identified concerns that the provider was not meeting requirements relating to changes that must be notified to Ofsted.

On 12 May 2026, we carried out a regulatory visit. We found that the provider had failed to notify Ofsted of a significant event, that may affect someone's suitability to be in regular contact with children. This is a requirement of their registration. During the visit the provider reflected on this oversight. They demonstrated an understanding of the importance of notifying Ofsted of any significant event, in line with the requirements going forward.

The provider will be able to give parents further information about this.

The provider is still registered with Ofsted.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years.
