

Compliance action taken for childcare provision

Ref: EY426015/5442439

Date: 15 June 2023

Summary of outcome

On 4 May 2023, we carried out an inspection and found the provider was not meeting some of these requirements.

The report and inspection outcome will be published in due course. Following the inspection, we served a welfare requirements notice on 23 May 2023. This is a legal notice that requires the provider to take the actions below within the timescales set out. The provider will be able to give parents further information about this.

Actions needed by 2 June 2023:

- ensure practitioners and any other person who has regular contact with children are suitable and until this is in place these adults do not carry out personal care for children and are not left alone with them
- ensure that a first aid box is accessible at all times, with appropriate contents for use with children, including when taking children on outings
- maintain a daily record of attendance including accurate hours of children's attendance
- improve your knowledge of significant events that must be notified to Ofsted.

On 5 June 2023, we carried out a regulatory visit to monitor these actions. We found that the provider had reviewed their risk assessments for supporting children with their personal care routines and ensured assistants who carry this out are suitable to do this. The provider had also reviewed how children are supervised and that assistants responsible for this are suitable. The provider has ensured that a first aid box with appropriate equipment is taken on outings with the children. The provider has reviewed the system they use for recording children's attendance to ensure the hours that children attend is recorded accurately. The provider has let Ofsted know about changes to the provision including persons working with children. The provider had also improved their knowledge of incidents and notifiable events

to Ofsted and the timeframe in which to do this in.

The provider will be able to give parents further information about this. The provider is still registered with Ofsted.
