Monitoring visit

Inspected under the social care common inspection framework

Information about this children's home

This local authority children's home provides short breaks, shared care and permanent accommodation for up to five children who have a learning disability and complex needs. Two children currently live in the home. The provider suspended short break provision at the time of the interim inspection in March 2022.

The registered manager resigned in February 2021. A new manager was appointed and applied to register with Ofsted but resigned in September 2021. An acting manager was appointed temporarily but this person has also now resigned. There is no manager in full-time day-to-day control of the home; the responsible individual is closely overseeing the setting.

Inspection date: 21 April 2022

This monitoring visit

Following the interim inspection on 22 March 2022, a restriction of accommodation was placed on the home. This means that no additional children can be admitted while the order is in place. This visit was carried out to monitor the situation at the home and to assess whether the restriction could be lifted.

The staffing situation has deteriorated. Some staff have left the home and additional agency staff have been brought in to cover the shortfall. The staffing is now arranged in a way that is more focused on the needs of the children, but this is hampered by the necessity to introduce new people to one of the two children. This creates difficulties around the lack of familiarity and developing a coordinated approach to delivering care.

Serious and concerning incidents continue to occur in the community. The responsible individual is working with the local police to improve the home's response. Agency staff are trained to use restraint, so that serious incidents can be avoided. Paperwork associated with incidents is not always up to date. Management

tasks have slipped due to limited management oversight. A temporary manager is due to start work at the home.

Ofsted remains concerned about the situation and will continue to monitor the home. Following this visit, the restriction remains in place.
