Monitoring visit

Inspected under the social care common inspection framework

Information about this children's home

This is a privately owned home which provides care and accommodation for up to seven young people with emotional difficulties and who may also present with more challenging behaviour.

The manager has been registered since 17 September 2018.

Inspection date: 29 January 2021

This monitoring visit

This visit took place following concerns that the home may not be meeting regulations. An anonymous complaint had been received by Ofsted which suggested that children were being put at risk.

The visit found no evidence to support the complainant's views of the home apart from one incident, which had been dealt with appropriately by the registered manager in the home.

Children, staff, ancillary staff, management and the responsible individual were spoken with and all spoke positively about the home and feel that it is a supportive and caring environment.

Ofsted considers that no further action is required to be taken.
